

WE NEVER STOP GROWING™

Over 100 Years and Still Growing Strong

When **Stephen Boskovich** began farming in Southern California's San Fernando Valley in **1915**, little did he know how far Boskovich Farms would grow. By the 1940s, Stephen's sons had expanded the farming operation to form **Boskovich Brothers Produce Growers**.

Today, four generations later, **Boskovich Farms** is still family-owned and operated. We grow on more than **18,000 acres** in California and Mexico, producing over 30 different vegetable crops. Our product lineup includes a variety of conventional and organic fresh produce available year round. In addition, our processing division, **Fresh Prep**, provides a diverse line of retail and food service items.
